Data to Include

- You should report only major medical data and stop loss.

Data to Exclude

- Accidental Injury
- Specified Disease
- Hospital Indemnity
- Dental
- Vision
- Disability Income
- Long-Term Care
- Medicare Supplement
- Medicare Part D (Prescription Drug Service)

Section to Complete

The Short Form is an Excel spreadsheet containing two tabs at the bottom.

Companies with either major medical or stop loss must complete the following

spreadsheet tabs.

1. Sections I-III. Company Information, Contact Information, and Direct Written Health Insurance Premium

2. Section IV. Short Form Data

Enter information into lines 1-5 (i.e., the yellow cells) in the Short Form Data tab. Line 6 is calculated from your entries in lines 1-5.

Companies with no major medical or stop loss only need to complete the “Sections I-III. Company Data” tab. Companies reporting data on the Maine 286-A report but **NOT** having any data in line 2 (Medical – Large Group > 50) or in line 3 (Medical – Small Group <=50) or in line 4 (Medical – Individual), or in line 11 (Stop Loss) or in line 12 (Short-Term Medical) should complete only the “Sections I-III. Company Data” tab. Although the 286-A report is not due until April, it would be helpful to prepare it before completing the 945 report.
